**EXECUTIVE SUMMARY**

The Rohner Center’s Annual Report encompasses 32 books, articles, and chapters either published or in press, and 31 articles in preparation or submitted for publication (by Faculty Affiliates, Student Affiliates, and Participating Members and their students). We received more than 700 requests for measures and books in many languages. Affiliates received 10 honors/awards. They presented 13 invited papers and participated in (virtual) symposia. A total of 48 research projects on topics concerning interpersonal acceptance-rejection were initiated or completed during the academic year. Rohner was invited to be a manuscript reviewer for 31 publications. Rohner and other affiliates and participating members in the Rohner Center were involved in many “Professional Service” activities such as serving on editorial boards and serving as peer reviewers for journals and book publishers.

### C. National and International Applications of Rohner's Interpersonal Acceptance-Rejection Theory (IPARTheory) and Associated Measures

1. Use of Rohner's IPARTheory and associated measures for assessment, intervention, treatment, and evaluation (including custody evaluation) of children and parents involved in parental alienation and estrangement. Countries involved: Bangladesh, Canada, Ireland, Italy, Macedonia, Poland, Romania, Slovenia, Turkey, U.S.A., and others. In conjunction with this work, Rohner also serves as an Advisory Board Member for educational programs for the judiciary and families in four counties in Texas. The program is "Resetting the Family: An Educational Program for Parents and Children in Conflict".
2. In response to an invitation by the APA, the Rohner Center provided diagnostic measures in Ukrainian to be used by psychologists, psychiatrists, and others who work with psychologically traumatized children and adults in the Ukraine. The Rohner Center has 35 measures in up to 75 languages worldwide. All of them are used internationally to help assess the effects and other correlates of perceived interpersonal rejection and acceptance. Interpersonal rejection is known to be associated panculturally with problems of anxiety, depression, suicide ideation and attempts, substance use, and many other emotional and behavioral problems. Luba Roshko, M.D. (from Ukraine) has graciously volunteered to translate many of these measures into Ukrainian, which we are now making available gratis to Ukrainian professionals.
3. WarChild Holland is using the Parental Acceptance-Rejection Questionnaire (PARQ) and Personality Assessment Questionnaire (PAQ) to assess parent-child relations in Uganda.
4. Use of Rohner's IPARTheory and associated measures with parents' (mothers' and fathers') acceptance-rejection of children in Indonesia who have mosaic sex chromosome and atypical or ambiguous genitalia.
5. Research and clinical interventions using IPARTheory and measures among LGBTQ+ youth experiencing parental rejection. Countries involved: Germany, Israel, Pakistan, U.S.A., and elsewhere.
6. Application of IPARTheory and measures to street children in Burundi, Africa. The objective here is to identify potential family-related risks motivating children to go to the streets, and to prevent children from going to the streets.
7. Use of Rohner's IPARTheory and associated measures to determine adults' *affective coping* with remembered parental rejection in childhood. Countries involved: Australia, Canada, Greece, Israel, Turkey, Pakistan, U.K., U.S.A., and elsewhere.
8. Parental rejection, vulnerability factors, and psychological adjustment of children and adolescents at psychological risk (research sponsored by Spanish government). Co-investigators \*\*\***Miguel Carrasco** and \*\*\***Pablo Holgado** at UNED in Madrid.
9. Application of IPARTheory and measures in clinical and court settings. Countries involved: Bangladesh, Colombia, Greece, Korea, Portugal, Romania, Spain, Turkey, U.K., U.S.A., and others.
10. Seminar course on interpersonal relationships across the lifespan taught by \*\*\***Sumbleen Ali** at the State University of New York, Oneonta.

**Website**. Coupled with the extensive use of email, the Center has found its website at [www.csiar.uconn.edu](http://www.csiar.uconn.edu) to be the single greatest promoter of interpersonal acceptance-rejection theory (IPARTheory) worldwide. The Center is

contacted on a daily basis year-round by agencies, researchers, clinicians, and other professionals and students to answer queries and provide resources, as noted throughout this Annual Report and in the Center's website itself.

**Handbook.** There are now over 1,700 known users of **Rohner & Khaleque's Handbook for the Study of Parental Acceptance and Rejection**. Instruments by Rohner published therein are used especially often in basic and applied research, but also in clinical practice, court proceedings regarding parental alienation, child custody, divorce proceedings, foster and adoption placement, and in parenting education programs (often in the context of pre-test and post-test evaluations) and other contexts. The *Handbook* is also one of the most frequently requested texts from the UConn Interlibrary Loan Department. The *Handbook* is now translated or is being translated into multiple languages.

**Rohner's *The Warmth Dimension*** is translated into Greek, Korean, and Persian languages. It is now (2024), being translated into Bulgarian.

**Dissertations and Theses.** Over 350 doctoral dissertations and Master's theses in the U.S. and internationally are known to have been completed using research instruments (especially the Parental Acceptance-Rejection Questionnaire, the Personality Assessment Questionnaire, the Physical Punishment Questionnaire, and more recently the Intimate Adult Relationship Questionnaire) created by **Rohner**. Many other theses and dissertations are in preparation internationally.

**Publications.** More than 1,000 books, chapters, and articles are known to have been published using research instruments created by **Rohner**. Many others are in preparation, and new ones are regularly discovered. The Rohner Center maintains an online bibliography of writings on interpersonal acceptance-rejection showing more than 5,000 entries.

**Translations.** The PARQ, PAQ, and other measures created by **Rohner** are known to have been translated into 78 languages and dialects. Newer instruments are now being translated for use in intracultural and cross-cultural studies. These include:

- Interpersonal Rejection Sensitivity Scale (IRSS)
- Intimate Adult Relationship Questionnaire [IARQ]
- In-Law Acceptance-Rejection/Control Questionnaire [ILAR/CQ]
- In-Law Acceptance-Rejection Questionnaire (Short form) [ILARQ]
- Interpersonal Relationship Anxiety Questionnaire [IRAQ]
- Early Childhood PARQ [ECPARQ]
- Grandparent Acceptance-Rejection Questionnaire [GARQ]
- Organizational Acceptance-Rejection Questionnaire [OARQ]
- Coach Acceptance-Rejection Questionnaire [CARQ]

**Data archive.** Numerous data sets (computer files), publications, etc. are gathered internationally and archived in the Rohner Center for scholarly research and applied practice. Data storage is also provided on the Google cloud at [PARScore6.appspot.com](https://PARScore6.appspot.com).
